How is LSS' Premium Patrol Scheme different from other LSS Security Patrols?

Whilst our standard, non-scheme Residential Security Patrols are comprehensive, they are generally deployed over larger areas or towns. This means non-scheme members still enjoy 12 or 24 hour Alarm Response, Key Holding and a high-visibility patrol unit presence at regular intervals, however, **Premium Patrol Schemes are reserved exclusively for smaller, more concentrated areas that stand to greatly benefit from an increased security presence, along with much quicker response times.**

LSS Premium Patrol Schemes are set-up exclusively for single roads, private developments and more affluent neighbourhoods at increased risk of burglary and vehicle theft. Rather than a single patrol unit covering several square miles, Premium Patrol Schemes benefit from a constant patrol presence as the patrol unit is not required to move on to other areas throughout the patrol period.
